6+ Months on the Market? There Is a Faster Way to Sell

We have reviewed the online listing for **FiftyFive, 55 Queen Street, Salford, M3**. It appears to have been marketed for around **344 days** at **GBP 440,000**, which usually means the issue is not demand alone. More often, it is presentation, positioning, pricing signals, portal visibility, or the way the listing is being relaunched to buyers. Once that initial surge of interest fades, enquiries slow — and the property starts to get overlooked.

We actively promote your property to qualified UK and international buyers — creating fresh, serious demand and generating enquiries from buyers ready to proceed, without disrupting your current sale process.

- You keep full control
 - We don't interfere with your agent
 - All enquiries go directly to you or your agent
- All we need is a link to your current listing.

This is a structured marketing programme designed to maximise your property's exposure:

- A one-time setup fee
- Ongoing monthly management
- A dedicated advertising budget

Most clients agree a sale within 4–12 weeks of launching.

If you're not ready for a full relaunch, we also offer a **Property Sale Audit** — a clear breakdown of why your property hasn't sold and what's holding it back.
